1. General description and use

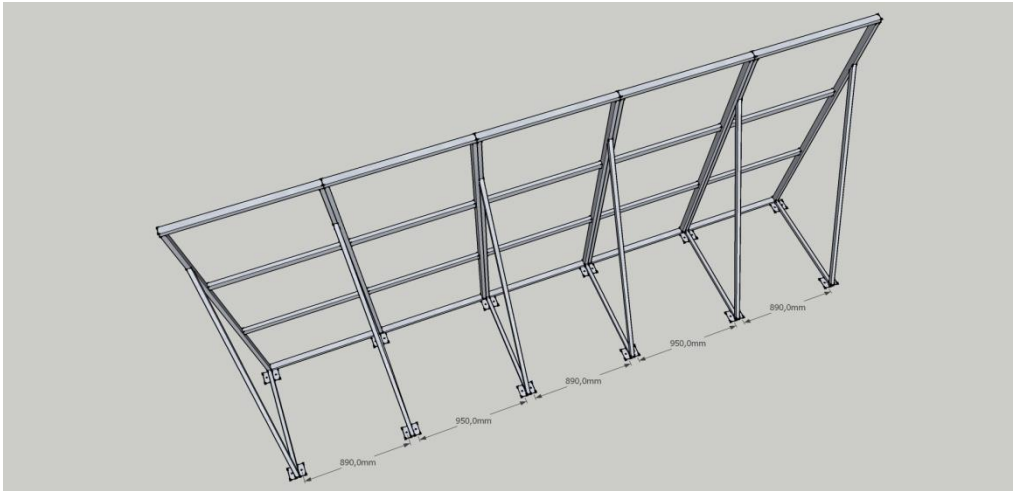

Stop mat is assembled on plywood attached to the steel galvanized frame. Mats occur after 50 cm beyond protecting frame before hitting its edge. They are attached to the frame with Velcro straps and clip and Velcro on plywood frame. Stop mat is equipped with steel frame (RSM-5x2) and cover (PSM-6x2).

3. Maintenance and storing

Due to the hygiene requirements it is recommended that the landing area should be cleaned regularly with commonly available detergents. Before you start wiping the landing area, please try to clean a small spot on its bottom side in order to check the reaction with the PVC fabric. They cannot be bent or pressed by any objects during storing. That may deform the segments permanently. A storing facility should be clean and dry. It ought to provide min. temperature 5° C.

4. Packing and transport

The product is sent in parts, in foil and on the pallets.

5. Declaration

1) No. 2016-06-08

2) Issuer's name: POLANIK Sp. z o. o.

Issuer's address: Życzliwa 11, 97-300 Piotrkow Tryb.

3) Objects of declaration

| No. | Name | Code |
