### Warning!

The sports equipment produced by Polanik is designed for athletics training and use in sports competitions only. Please pay special attention especially when using throwing implements and other throwing equipment, misuse of athletics equipment and implements can cause serious injury. In no event shall Polanik be liable for any special, incidental, indirect or consequential damages in connection with the purchase or use of POLANIK products or costs over the original cost of the product. Concerning our permanent efforts to improve our products i.e. their quality and aesthetic values, we reserve the right to introduce, without prior notice, constructional changes as well as other modifications in standard colours of the equipment and implements.

### Specific warranty terms

- 1) The use of the throwing implements is to be done at the properly marked and secured sports facilities designed for that purpose and under supervision of qualified coaches, and according to: the rules of the International Association of Athletics Federations (IAAF), respective national athletics federation and local safety regulations. Failure to follow the above restrictions results in loss of the warranty rights.
- 2) The discuses are athletics throwing implements designed for the athletics competition event – discus throw. The mechanical damages of the discuses (scratches, dents and so on) caused by landing on the throwing sector or other discuses remaining on the throwing field are recognized as a normal wear of the product and are excluded from the warranty.

### I. Use

The competition plywood discuses are designed for discus throw competitions and training programs.

### II. Technical specification

Discus rim made of special alloy resistant to corrosion, hard plywood sideplates (made of special mixture of wood and resin pressed under high pressure). Non-standard weights on request even up to 4 kg. The discuses are produced according to the below specification:

Product	Weight (kg)	Outside diameter (mm)	Thickness of metal plate or flat centre area (mm)	Diameter of metal plate or flat centre area	Thickness of rim measured 6 mm from its edge (mm)
code	+0,005 +0,025	±1	+0-0,4		
HPD14-0,6-R6	0,60	159	30	41	12,60

### III. Operation and maintenance

The discuses should be used on grass ground only. The throwing field should be free of hard objects and thrown discuses should be removed regularly during training and competitions.

### IV. Packing and transport

The discuses are packed in paper bags and foil bags. Each discus is packed in a 3-layer cardboard box.
