## Warning!

The sports equipment produced by POLANIK is designed for athletics training and use in sports competitions only. Please pay special attention especially when using throwing implements and other throwing equipment, misuse of athletics equipment and implements can cause serious injury. In no event shall POLANIK be liable for any special, incidental, indirect or consequential damages in connection with the purchase or use of POLANIK products or costs over the original cost of the product. Concerning our permanent efforts to improve our products i.e. their quality and aesthetic values, we reserve the right to introduce, without prior notice, constructional changes as well as other modifications in standard colours of the equipment and implements.

Specific warranty terms:

- 1. The use of the throwing implements is to be done at the properly marked and secured sports facilities designed for that purpose and under supervision of qualified coaches, and according to: the rules of the International Association of Athletics Federations (IAAF), respective national athletics federation and local safety regulations. Failure to follow the above restrictions results in loss of the warranty rights.
- 2. The competition shot puts are athletics throwing implements designed for competitions of shot put athletics event. The damages of competition shot puts (scratches, dents and so on) caused by landing on the throwing sector are recognized as a normal wear of the product and are excluded from the warranty.

Weight allowance [kg]	from +0,005 (lower deviation) up to +0,025 (upper deviation)	
*		

\*covered with petroleum jelly for transport

#### **III.** Packing

The product is packed in the leather carrying bag and carton box.

Shot put boxes are shipped in collective wooden – hardboard cases, their dimensions depend upon orders' quantities. Cases can be transported by means of forklifts and hand pallet jacks.

#### IV. Operation and maintenance

The shot is designed to be put in athletics shot put competition and training on grass grounds or alike only. The product must not be used on hard surfaces, like asphalt, concrete etc. Since the shot is made of steel which is not stainless, the product is covered with petroleum jelly before packing. However it loses gradually its protection due to hitting a throwing sector, so after each use (competition or training) the product should be cleaned, degreased and covered with petroleum jelly. It is to be stored in a dry and roofed place.
