### I. General description and use

PBS17-02 is a competition starting block. The block is made of aluminium, so it is light and very durable. Its wide foot supports have got a special ergonomic shape and are covered with high quality synthetic track. The product offers a wide adjustment range of foot supports and their reciprocal positions. PBS17-02 can be easily equipped with electronic react time systems.

## II. Technical specification

[mm]

Code	PBS17-02
Type	competition, certified, aluminium
Use on	synthetic track only
Block rail	pressed aluminium profile, with handle, equipped with inclined spikes for better anchoring in track
Casing of foot support	pressed aluminium profiles, two fastening bolts
Foot support	pressed aluminium profile, of ergonomic shape, with synthetic track
Adjusting lever of support inclinations	pressed aluminium profile, spring loaded
Positions of foot support	5
Positions of foot support casing	15
Net weight [kg]	5,4

### III. Operation and maintenance

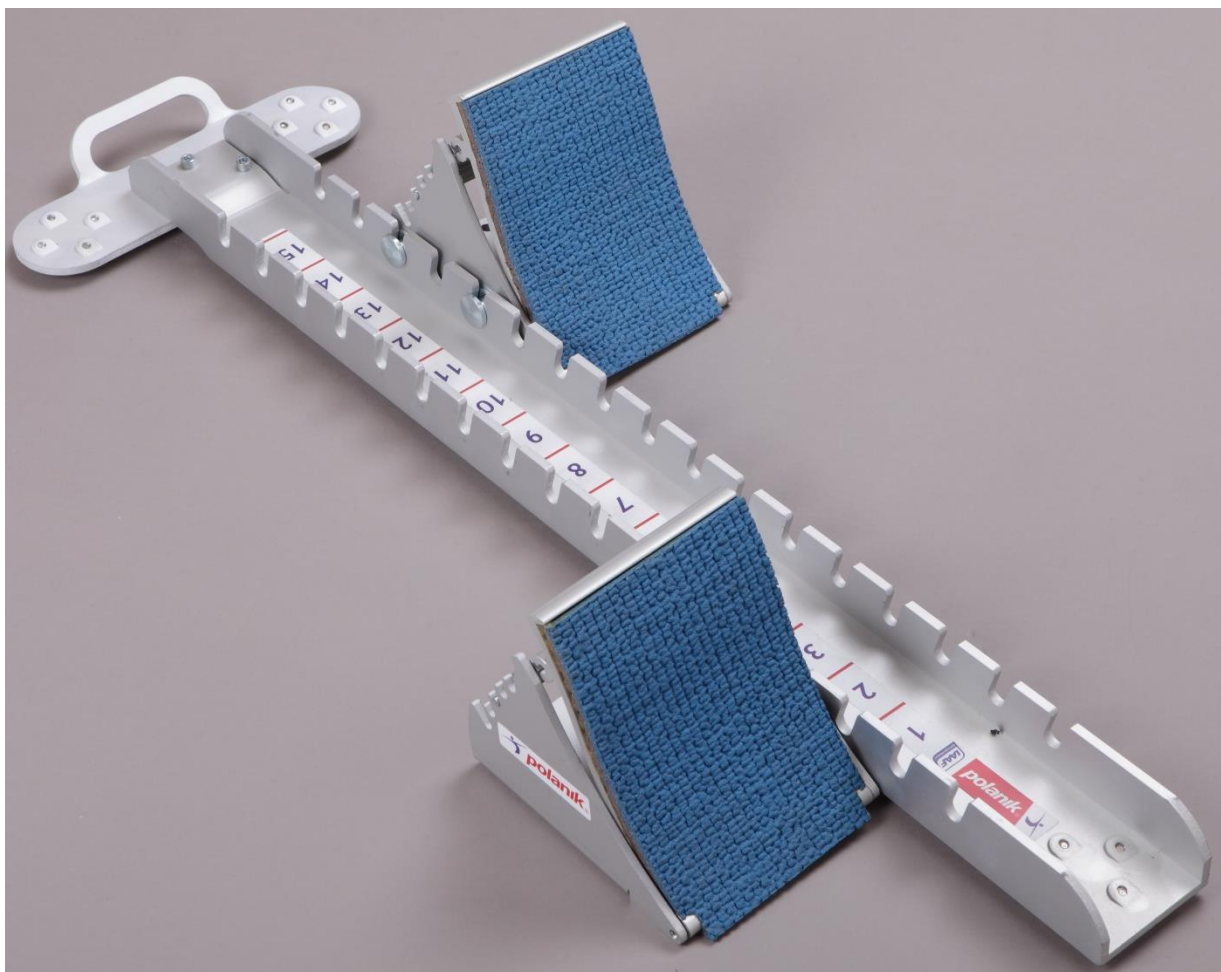

After each use make sure to check if the spikes are correctly screwed in the block rail. If they work loose in the rail, they should be tightened, otherwise they will gradually damage the threads in the aluminium rail. The starting blocks must be stored in a roofed and dry place.

### IV. Packing and transport

The starting block is packed in a carton box:

	contents	1 pc	2 pcs
Box's dimensions [m]	length L	0,92	0,92
	width B	0,34	0,34
	height H	0,18	0,18
	Volume [ m <sup>3</sup> ]	0,056	0,056
Gross weight [kg]		6,16	11,56
