

TECHNICAL SPECIFICATION

Throwing weight handle S-145

I. General description and use

The handle is to be used with athletics throwing weights and heavy hammers.

II. Technical specification

Code	S-145
Type	training
Usage	throwing weights up to 30 kg
Grip	aluminium alloy, straight
Brace	steel wire 4,6 x 3 mm
Inside width [mm]	125
Weight [g]	128
Max load [kN]	> 20

III. Operation and maintenance

The handle does not require any special maintenance measures. If a handle deformation appears the handle must not be altered or repaired in any way – it has to be replaced with a new handle.

IV. Packing and transport

The handles are foiled separately.
